

David Chen Memorial Taiji Practice Platform

An effort is currently underway to create a community taiji practice platform in Cabin John Regional Park in Potomac, Maryland in memory of David Chen (see picture above). This is the park that David practiced in for many years and the place where many of his students and friends still practice every weekend. David Chen always worked hard to spread taiji throughout the community and we believe this public taiji practice area would be a most fitting tribute to his tireless effort to share taiji with others. David's students are now working with Montgomery County officials to help make this special community taiji practice area a reality.

Funds generously donated to the David Chen Memorial Fund will be used to help pay for this taiji platform. If interested, please email Joanne Chang at joanne@wuweitaichi.com.
